## We put a lot of trust in government. And vice-versa.

Jackson Thornton provides our large public-sector client base a consistent resource for governmental financial management. In addition to in-depth consultation, we offer audit services and assistance in meeting federal funding regulations to municipalities, state agencies, utilities, and state and local authorities. Working with elected officials, staff, and council leadership, our experts help governmental entities make sound long-term and short-term decisions.

### Nationwide Resources, Personal Attention

Jackson Thornton is a professional accounting and consulting firm providing comprehensive resources and high quality services designed to help organizations reach their most productive level. Affiliated with RSM US Alliance national network of firms, we draw from the vast resources and services of one of the country's largest accounting and consulting firms, while maintaining the responsive, personalized attention that is the hallmark of Jackson Thornton's client-centered service.

### The Right Services for the Right Decisions
